ALPHA ACCESSORIES

Alpha Systems AOA is constantly working on new and innovative accessories to improve your experience. The accessories minimize installation times and increase mounting options which allow the installation to be customized to the aircraft and the pilot's visual / mounting requirements.

MOUNTING PLATES (No Doubler Required)

UNIVERSAL/MAULE
(Fits in 3.5" opening.)

CIRRUS G1, G2 & G3

All Alpha Systems AOA angle of attack kits come with the standard AOA probe mounting plate. In some aircraft, to minimize the installation time and increase the mounting options, Alpha Systems AOA created optional, aircraft specific AOA probe mounting plates. These plates replace the standard plate and can be installed in an existing inspection hole in minutes by tightening the mounting screws with NO modifications to the wing.

- Universal/Maule Mounting Plate**
With Kit Purchase: **\$250.00***
- Cirrus G1 & G2 Mounting Plates**
With Kit Purchase: **\$350.00***
- Cirrus G3 Mounting Plates**
With Kit Purchase: **\$350.00***

* If upgrading previously purchased kits, a \$50 surcharge will apply until standard mounting plate is returned.

DISPLAY MOUNTING OPTIONS (AOA Display Shroud Included)

Vertical Swivel Horizontal Swivel Dash Mount Swivel Surface Mount

DASH MOUNTS

"ULTRA" VERTICAL DISPLAY SHOWN ON SWIVEL MOUNT

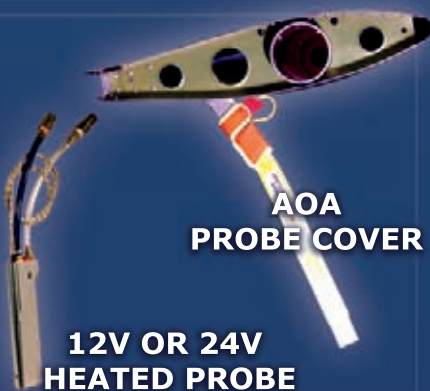

"ULTRA" KIT SHOWN

Alpha Systems AOA created additional display mounting brackets for the "Ultra" and the "Legacy" displays for those pilot's that desire the display to be mounted on top of the glare shield, in a vertical or horizontal configuration. Mounting kits come standard with display shroud and choice of two mounting options:
1.) Solid display mount, to hold the Legacy / Ultra mounted vertically.
2.) Swivel mounts for Legacy and both vertical and horizontal Ultra AOA displays, allowing pivoting / positioning for a custom visual alignment.

- "ULTRA" OR "LEGACY" SWIVEL MOUNT KIT**
Retail Price: **\$85.00**
- "ULTRA" OR "LEGACY" DASH MOUNT BRACKET KIT**
Retail Price: **\$40.00**

OTHER ACCESSORIES

AOA PROBE COVER

12V OR 24V HEATED PROBE

REMOTE BEEPER

HEADSET AUDIO INTERFACE KIT

(For standard electronic kits.)

Alpha Systems AOA created heated probes in both 12V DC and 24V DC versions, along with a remote beeper or audio interface system that allows the warning tone to be interfaced into the audio panel of most aircraft.

- 12V OR 24V HEATED PROBE**
With Kit Purchase: **\$125.00***
- HEADSET AUDIO INTERFACE KIT**
Retail Price: **\$125.00**
- REMOTE BEEPER**
Retail Price: **\$75.00**
- AOA PROBE COVER**
Retail Price: **\$16.50**

* If upgrading previously purchased kits, a \$50.00 surcharge will apply until standard probe is returned.
